

Aerize Alerts 2008

Premium BlackBerry Application
v1.0.0

- **See the senders picture and name, the subject of the email, and a brief preview**
 - **Preview Email while in any application or game**
- **Don't miss an important email or lose focus when a new email arrives**
 - **Easily open, mark as read, or delete the message**

You know when Email arrives, now you can know even more instantly! Aerize Email Alerts previews each Email with the senders picture and name, the subject of the email, and a brief preview. A simple and clean popup notification allows Email in any application; whether you're browsing the web, composing an Email, or playing games, you won't have to exit to check on important Emails. BlackBerry Email may be great, with Aerize Email Alerts it's even better!

Requirements:
BlackBerry OS 4.2+

Aerize Alerts Manual - Revision I

Installation and Registration

Installation

It's easy to install Aerize Alerts; simply run the installer on your personal computer and follow the on screen instructions.

1. Connect your BlackBerry device to your computer
2. Run the Aerize Alerts Desktop EXE
3. Enjoy!

Registration

Aerize Alerts has a fully functional 7 day trial. When the trial period has ended, you may purchase a Serial Code to enable prolonged usage.

1. Purchase a Serial Code
2. Open the Aerize Alerts Options
3. Enter your Serial Code

Application Permissions

Aerize Alerts requires the Email/messaging and PIM permissions in User Data to work properly. Permissions can be enabled by navigating to **BlackBerry Options > Advanced Options > Applications > Aerize Alerts**, and pressing the menu key, then **Edit Permissions**. If these permissions are not allowed the software may request the permissions; if refused, the program may not operate.

General Usage

Configuring Aerize Alerts

To configure how and when Alerts will notify you, select the Aerize Alerts application icon in your BlackBerry device. Once the options are saved, no further intervention is necessary, and all future alerts will be displayed in the specified manner upon receipt of a new Email.

Options

Changing Aerize Alerts Options

You can configure the way Aerize Alerts works to suit your personal tastes.

1. Navigate to the Aerize Alerts application icon and select it
2. Change the options
3. Save by selecting **Menu > Save**

Font size

Controls the size of text used in the application and for alerts.

Auto-dismiss

When auto-dismiss is enabled, Email notifications will automatically hide themselves after the selected duration of time. The Email will still be available to view in the Messages application as normal. Moving the trackball while in a popup alert will extend the timer to allow further reading time. Auto-dismiss can be disabled, and then the notifications will remain on screen until manually dismissed.

Show Email popup

This option determines whether alerts will be displayed upon receipt of a new Email.

Show SMS popup

This option determines whether alerts will be displayed upon receipt of a new text message.

Require Contacts Picture

This option will only allow popups for messages that have a corresponding contact in the Address Book with a picture. The address of the message is used to determine the contact.

Condense body preview

This optimizes the compact preview of messages by not displaying enter (carriage return) characters in the notification pane.

Display example alert

This button creates a sample alert to illustrate how automatic alerts will look.

Serial Code

To register Aerize Alerts for full functionality after the trial period has expired, enter the 5-digit numerical code in this field. A serial code can be purchased from the site where the download was acquired. NOTE: Serial codes do NOT have the letters 'O', 'I', 'B' or 'L'

Common Questions

Q. How do I change the picture used for the Email popup?

A. Aerize Alerts automatically uses the contacts picture associated with the Email address. These can be changed as normal in the Address Book application. Select a contact and then choose **Edit** in the menu.

Q. Why are popup notifications not being generated?

A. If you've already successfully installed Aerize Alerts, it may be necessary to restart the device. This can be performed by removing the battery for a moment and then replacing it and allowing the BlackBerry to boot. Please also check to see that the correct application permissions are enabled by navigating to **BlackBerry Options > Advanced Options > Applications > Aerize Alerts**, and pressing the menu key, then **Edit Permissions**.

Q. How can I upgrade my device software?

A. Follow the steps below:

1. Backup your device information
2. Download and Install the latest OS for your device
(http://na.blackberry.com/eng/support/downloads/download_sites.jsp)
3. Upgrade your device using the Application Loader from BlackBerry Desktop Manager
